

VIOSO DOMEMASTER

Scalable interactive fulldome shows

VIOSO DOMEMASTER | performer is a turnkey workstation solution...

- ...for seamless display on **8-12 projectors**
- ...turnkey solution for performing **fulldome** projections
- ...enables any third party application to be run in any fulldome setups (visualizations, games, etc.)
- ...features with camera based autocalibration and contains an ethernet camera with fisheye lens
- ...optional live input (DVI-D)
- ...can be upgraded to use **Wings VIOSO** for professional playback of any domemaster resolution and advanced show control

Specifications:

	8 outputs	12 outputs	16 outputs
Processor, Memory	Intel Core i7-3770S, 4 x 3,10 GHz, 8MB Cache, 16GB RAM		
Harddisks	1x 120 GB 2,5" SSD, 1x 180 GB 2,5" SSD		
Removable medium	DVD Reader		
Control monitor	1x DVI or Displayport		
Projector outputs	4x DVI	12x DVI	16x DVI
Synchronization	Framelock & Genlock		
Audio	5.1 (mini Jack) S/PDIF (1 x optical, 1 x coaxial)		
Network	2x RJ45, 1000MBit/s		
Interfaces	6 x USB 2.0, 1 x E-SATA, 2 x USB 3.0		
Operating system	Windows 7 Pro 64 Bit (English language) *		
Projector blending	VIOSO Anyblend * 8 channels	VIOSO Anyblend * 12 channels	VIOSO Anyblend * 16 channels
Content playback	VIOSO Player (e.g. for Domemaster videos in H.264 encoding)
